MINISTERIAL CONFERENCE « INVESTING IN EDUCATION »

TUESDAY 15 FEBRUARY 2022, LAB 110 BIS, PARIS

15

FEB.

The EU Member States have emphasised the essential role of Education by maintaining a high level of investment in this field. At European level, an average of 12% of the national recovery and resilience plans have been devoted to education.

Reaffirming that education is a key investment for the future, this conference brings together decision-makers, researchers and experts to share best practices and examine from a European perspective the effectiveness of education policies and the best means of assessing their efficiency.

The aim of the conference is also to shape an emerging European approach to quality investment in education, with a view to contributing to the European Education Area by 2025.

The conference [will be held online](#) from Paris Lab 110 bis and will be moderated by the journalist Florence Dauchez.

TIME

SESSION

Introductory panel: **Education: an Investment for the Future**
